

Sueno Dorado

Spain | Extremadura

Art. Nr. 55169

Wine Description

The wine shimmers cherry red in the glass. On the nose fruity-spicy aromas of leather and nougat, subtly accompanied by sour cherries and dark berries. This Tempranillo is very fruity and spicy at the same time on the palate. The delicate sweetness supports the structuring tannins and gives it body and contour.

Region Description

Extremadura is one of the oldest wine regions in the world and one of the classic wine-growing regions in Spain. Viticulture here began with the Romans and has remained important in the following centuries. Tempranillo, Spain's much appreciated red grape varietal typically has a medium acidity and medium tannin content

Food Pairing:

This semi-dry red wine is a good match with delicate ragouts, fresh mushrooms, wild fowl and juicy roasts. Also goes well with a mild cheese.
