

Jamaica Rum

Germany

Art. Nr. 57678

Wine Description

This Jamaica rum has a strong, robust flavor with an underlying sweetness making it quite distinct. It is renowned for its pungent, rich and lush flavours characterized by tropical fruits, banana, toffee, vanilla, caramel and spices. There is a boldness in its flavour profile which includes varying ratios of fruit, spice, vanilla, and molasses notes.

It has a full-bodied and complex taste with unique, smoky overtones because Jamaican rums are fermented longer, using wild yeasts. The colour ranges from golden to dark, depending on the length of aging, and it has a smooth finish that lingers on the palate.

Food Pairing:

This premium Jamaican rum is aged for a long time to enhance its characteristic flavours. Despite its richness, it maintains a certain smoothness that makes it a treat for rum aficionados, bringing depth and complexity to cocktails or to be enjoyed neat.
