

Cape Root Pinotage Western Cape

South Africa | Western Cape

Art. Nr. 60055

Wine Description

Over many years our customers have enjoyed fantastic South African wines symbolised by a variety of animals unique to this vibrant, exciting country. Now not only has the Western Cape Pinotage a new style of label depicting one of these animals but due to the phenomenal success of this wine it has received the great accolade of joining the Cape Root collection.

This exclusive presentation adds value to this fantastic wine which still maintains the classic flavours of ripe red berries complimented by the gentle spice that we have come to expect.

Region Description

Benefiting from a Mediterranean like climate, the red wine production of the Western Cape is concentrated in the high-lying vineyards of the region. Considered the King of South African grapes, the Pinotage grape needs the high altitude to extend its “hang time”, to ensure development of its tannin ripeness and to eliminate its rough edges (you can always tell Pinotage from low-lying vineyards by its banana and nail varnish aroma). Properly cultivated Pinotage is South Africa’s greatest grape variety (Pinot Noir and Cinsault cross) and our unique style, fruity and rich, is very popular with our clients world-wide (our Pinotage has residual sugar levels halfway between Chevalier de Bayard and Mundana).
