

Pinot Grigio delle Venezie

Italy | Veneto

Art. Nr. 60522

Wine Description

A wine full of character with finesse. On the nose with citrus and flower notes as well as a subtle spice, on the palate it appears with notes of yellow fruits such as apricot, pear and quince. In addition, there is a fresh acidity with a delicate melting in the finish.

Region Description

In the northern Italian regions of Friuli and Veneto, Pinot Grigio is one of the most important grape varieties. Here you will find especially calcareous soils due to the Dolomites. This gives the wine a mineral character. A grey veil covers the dark skin of this grape. The colour indication grigio (grey) is a note of a pigment variation, as there are lighter and darker berries. Initially still a trend, the Pinot Grigio delle Venezie has been a DOC since 2018 and thus an integral part of the wine cellars of the world.

Food Pairing:

This wine accompanies an aperitif as well as poultry and fish dishes, antipasti or light grilled dishes
